MATHEMATICS

Use fraction-decimal connections in practical comparison

Look carefully. Think about parts of a whole.
Show your work by colouring, drawing, or writing.

Name: ____________________

Date: ____________________

Step 8

Early Elementary

Today I am learning to use fraction-decimal connections in practical comparison.

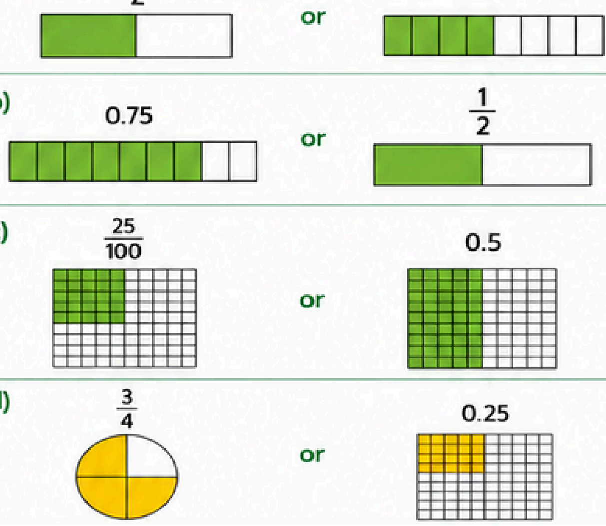
1. Match the Fraction and Decimal

Draw a line to match.

	$\frac{1}{10}$	0.1
	$\frac{5}{10}$	0.5
	$\frac{2}{10}$	0.2
	$\frac{25}{100}$	0.25
	$\frac{50}{100}$	0.50
	$\frac{75}{100}$	0.75

2. Which Is More?

Circle the larger amount.



a) $\frac{1}{2}$ or 0.4

b) 0.75 or $\frac{1}{2}$

c) $\frac{25}{100}$ or 0.5

d) $\frac{3}{4}$ or 0.25

3. Real-Life Comparisons

Look at each situation. Are the amounts the same?

a) A bottle is: $\frac{1}{2}$ full | 0.5 full

Are these the same amount? ☐ Yes ☐ No

b) A collection jar is: $\frac{75}{100}$ full | 0.75 full

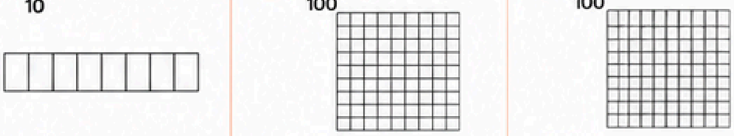
Are these the same amount? ☐ Yes ☐ No

c) A chocolate bar has: $\frac{2}{4}$ remaining | 0.5 remaining

Are these the same amount? ☐ Yes ☐ No

4. Colour and Compare

Colour the model to show the fraction.
Write the decimal.



a) $\frac{5}{10}$

Decimal: ____________

b) $\frac{25}{100}$

Decimal: ____________

c) $\frac{75}{100}$

Decimal: ____________

5. Order the Amounts

Write from smallest to largest.

a) $\frac{1}{4}$, 0.5 , $\frac{3}{4}$

☐ < ☐ < ☐

b) 0.2 , $\frac{1}{10}$, 0.75

☐ < ☐ < ☐

6. Practical Problems

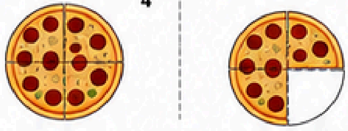
Solve each problem.

a) Ben drank 0.5 of a bottle of water.
Mia drank $\frac{1}{4}$ of a bottle.
Who drank more?

Answer: ____________________

b) A pizza has $\frac{75}{100}$ remaining.

Another pizza has $\frac{3}{4}$ | Another pizza has:



Do they have the same amount left?

Answer: ____________________

c) A chocolate bar has 0.25 left. | Another has $\frac{1}{4}$ left.

Which has more?

Answer: ____________________

7. Think and Answer

Answer the questions.

a) What decimal is the same as:

$\frac{1}{2}$ = ____________

b) What fraction is the same as:

0.5 = ____________

c) How can pictures help you compare fractions and decimals?

____

____

____

I can...

- ☆ connect fractions to decimals.
- ☆ compare fractions and decimals.
- ☆ order amounts using decimals.
- ☆ use pictures to help me solve real-life problems.
