

Understand Simple Equal Groups and Arrays

Step 19

★ Today I am learning to understand simple equal groups and arrays.

1. Equal Groups

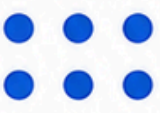

Circle the pictures that show equal groups.

a. 	b. 	c. 	d. 
---	--	---	--

2. Arrays

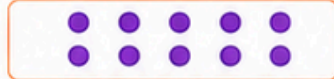

Look at each array. Write the number of rows and columns.

Rows go across → Columns go down ↓

a.  Rows: _____ Columns: _____	b.  Rows: _____ Columns: _____	c.  Rows: _____ Columns: _____	d.  Rows: _____ Columns: _____
---	---	--	---

3. Let's Match

Draw lines to match the equal groups to the array with the same total.

a. 3 groups of 2		•	
b. 2 groups of 4		•	
c. 4 groups of 3		•	
d. 2 groups of 5		•	

4. Solve the Problems

Read the problems. Draw groups or arrays to help you. Write the answer.

a. Mia has 3 plates. Each plate has 2 cookies. How many cookies altogether? Draw groups or an array. Answer:	b. There are 2 rows of 4 flowers. How many flowers are there? Draw groups or an array. Answer:	c. Jack makes 4 equal groups of 2 blocks. How many blocks does he have? Draw groups or an array. Answer:	d. There are 3 rows of 3 stars. How many stars are there? Draw groups or an array. Answer:
---	--	--	--

My Learning Check

Circle a face.

I can do it!

Almost there!

I need help.

This was hard.

Parent Observation (optional)

- ☐ Identified equal and unequal groups
- ☐ Recognised simple arrays
- ☐ Used drawings or objects to solve
- ☐ Needed support
- ☐ Demonstrated understanding verbally

Notes: _____
