

Use halves, quarters, and simple fractions in practical tasks

Look carefully. Think about parts of a whole.
Show your work by colouring, drawing, or writing.

Step 3

Kindergarten /
Early Elementary

★ Today I am learning to use halves, quarters, and simple fractions in practical tasks.

1. Halves Colour one half of each shape.

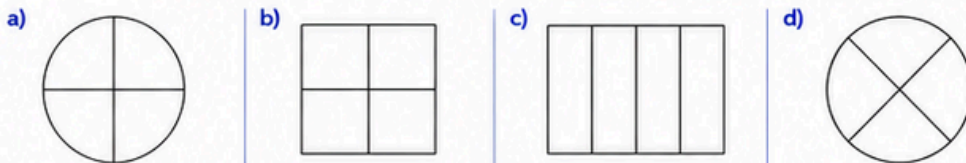

Fill in the blank.

a) One half = ____ of 2 equal parts.

b) We write one half as $\frac{1}{2}$

2. Quarters Colour one quarter of each shape.

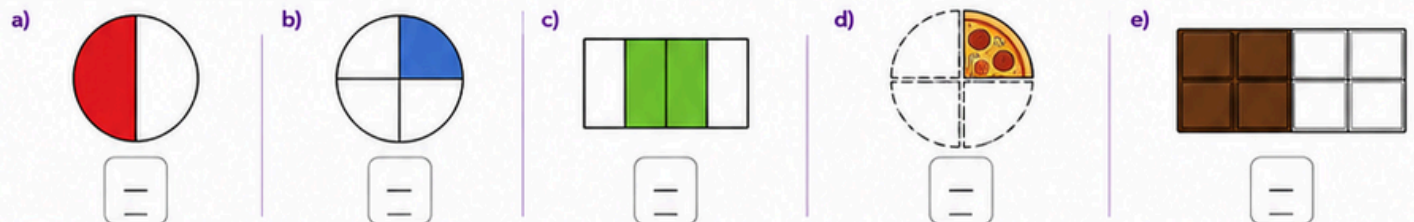

Fill in the blank.

a) One quarter = ____ of 4 equal parts.

b) We write one quarter as $\frac{1}{4}$

3. Simple Fractions in Real Life Look at each picture. Write the fraction that is coloured or shown.

4. Practical Tasks Read each task. Draw or write your answer.

a) You have 1 apple. Cut it into 2 equal parts. How many parts is one half?

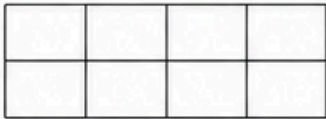

Answer: _____ part(s)

b) You have 4 cookies. Share them equally with 4 friends. How many cookies will each friend get?

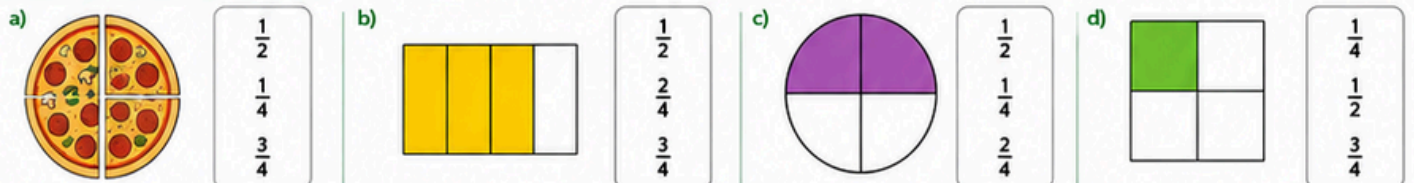

Answer: _____ cookie(s)

c) You have 2 sandwiches. Share them equally with 2 friends. Draw how you would share them.

Answer: Each friend gets _____ half sandwich(es).

d) You have a chocolate bar. Colour three quarters of it. How many parts did you colour?

Answer: _____ parts
Fraction: _____

5. Circle the Correct Answer Circle the correct fraction for each picture.

6. Think and Answer Answer the questions.

- a) What is one half of 10? _____
b) What is one quarter of 8? _____
c) Give one example of something you can cut into halves. _____
d) Give one example of something you can cut into quarters. _____
e) Why is it important to share things equally? _____

I can...

- ☆ use halves in real-life situations.
- ☆ use quarters in real-life situations.
- ☆ use simple fractions to show parts of a whole.
