

MyLearna Learning Record

Autumn Learning Record

Family learning record for Avery covering Autumn 2026.

Prepared as a calm, practical learning record to support home education reporting and family record keeping.

At a glance

LEARNER

Avery

REPORTING PERIOD

Autumn 2026

DATES

1 Feb 2026 to 30 Apr 2026

PREPARED ON

14 May 2026

STATUS

Ready

Overview

This learning record brings together selected portfolio evidence and written report sections for Avery during Autumn 2026.

Learning record snapshot

4 selected evidence entries support this learning record.

3 written sections shape the narrative of the report.

Learning areas represented: Mathematics, Science, Humanities, English.

Evidence summary

A quick view of the selected evidence included in this learning record.

Selected evidence in this record
1. Kitchen measurement project 14 Feb 2026 Mathematics
2. Nature journal sequence 3 Mar 2026 Science
3. Historical discussion notes 24 Mar 2026 Humanities
4. Read-aloud reflection 12 Apr 2026 English

Report sections

Section 1
Learning highlights
Avery followed questions from gardening, reading, and practical maths into steady work that felt connected across the term. Avery followed questions from gardening, reading, and practical maths into steady work that felt connected across the term. The next focus is extending independent planning while keeping a strong balance of reading, conversation, and hands-on evidence.

Selected evidence details

These notes show the selected evidence that sits behind the written report and helps trace the learning record back to the source entries.

1. Kitchen measurement project

Observed 14 Feb 2026 | Learner Avery | Learning area Mathematics

Program: Home maths rhythms | Week / segment: Week 3

WHAT HAPPENED

Avery measured ingredients, adjusted quantities, and explained each conversion clearly while working through the recipe. Avery measured ingredients, adjusted quantities, and explained each conversion clearly while working through the recipe. Avery measured ingredients, adjusted quantities, and explained each conversion clearly while working through the recipe. Avery measured ingredients, adjusted quantities, and explained each conversion clearly while working through the recipe.

REFLECTION

This showed growing confidence with practical fractions and clearer mathematical language in conversation. This showed growing confidence with practical fractions and clearer mathematical language in conversation.

PORTFOLIO NOTE

Saved as a selected portfolio highlight for the report period.

2. Nature journal sequence

Observed 3 Mar 2026 | Learner Avery | Learning area Science

WHAT HAPPENED

Avery recorded observations across several weeks and returned to earlier entries to notice changes in detail and accuracy. Avery recorded observations across several weeks and returned to earlier entries to notice changes in detail and accuracy. Avery recorded observations across several weeks and returned to earlier entries to notice changes in detail and accuracy. Avery recorded observations across several weeks and returned to earlier entries to notice changes in detail and accuracy.

REFLECTION

The journal showed patience, stronger descriptive language, and a growing habit of looking back to compare evidence over time.

3. Historical discussion notes

Observed 24 Mar 2026 | Learner Avery | Learning area Humanities

Program: Stories and timelines | Block: Term inquiry

WHAT HAPPENED

Avery linked people, events, and causes more clearly during discussion and returned to notes to support a viewpoint. Avery linked people, events, and causes more clearly during discussion and returned to notes to support a viewpoint. Avery linked people, events, and causes more clearly during discussion and returned to notes to support a viewpoint. Avery linked people, events, and causes more clearly during discussion and returned to notes to support a viewpoint.

PORTFOLIO NOTE

Family notes were kept after the discussion and linked to the portfolio selection.

4. Read-aloud reflection

Observed 12 Apr 2026 | Learner Avery | Learning area English

Week / segment: Week 11

WHAT HAPPENED

After reading aloud, Avery reflected on character choices and supported ideas with specific moments from the text. After reading aloud, Avery reflected on character choices and supported ideas with specific moments from the text. After reading aloud, Avery reflected on character choices and supported ideas with specific moments from the text. After reading aloud, Avery reflected on character choices and supported ideas with specific moments from the text.

REFLECTION

This reflected stronger comprehension and a calmer confidence in speaking through ideas before writing.
