

Add and Subtract Within 20 Using Known Facts

Step 17

Today I am learning to add and subtract within 20 using known facts.

1. Let's Look

Use known facts to solve.

$6 + 3 = \boxed{}$

$8 + 4 = \boxed{}$

$10 + 5 = \boxed{}$

$9 + 7 = \boxed{}$

$12 - 4 = \boxed{}$

$15 - 5 = \boxed{}$

$17 - 9 = \boxed{}$

$20 - 8 = \boxed{}$

2. Let's Try

Fill in the missing number.

$\boxed{} + 5 = 12$

$7 + \boxed{} = 15$

$9 + \boxed{} = 14$

$\boxed{} + 6 = 13$

$16 - \boxed{} = 10$

$18 - \boxed{} = 9$

$\boxed{} - 4 = 11$

$\boxed{} - 7 = 8$

3. Let's Think

Circle the correct answer.

1) $8 + 6 =$ 12 13 14

2) $14 - 7 =$ 6 7 8

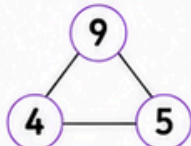

3) $9 + 9 =$ 17 18 19

4) $20 - 3 =$ 16 17 18

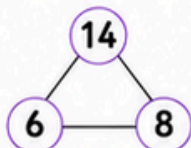

4. Challenge

Use fact families and number stories.

a) Complete the fact family.

$$\begin{array}{rcl} ____ + ____ & = & ____ \\ ____ + ____ & = & ____ \\ ____ - ____ & = & ____ \\ ____ - ____ & = & ____ \end{array}$$

$$\begin{array}{rcl} ____ + ____ & = & ____ \\ ____ + ____ & = & ____ \\ ____ - ____ & = & ____ \\ ____ - ____ & = & ____ \end{array}$$

b) Solve the story.

- 1 Liam has 8 toy cars. He gets 5 more.
How many cars does he have now?

Answer: _____

- 2 Mia has 17 stickers. She gives 6 away.
How many stickers are left?

Answer: _____

My Learning Check

Circle a face.

I can do it!

Almost there!

I needed help.

This was hard.

Parent Observation (optional)

- ☐ Added within 20 using known facts
- ☐ Subtracted within 20 using known facts
- ☐ Used fact families or mental strategies
- ☐ Needed support
- ☐ Demonstrated understanding verbally

Notes: _____
