

Generalise simple rules and equivalent relationships

Name: _____

Date: _____

Step 6

Kindergarten /
Early Elementary

Today I am learning to generalise simple rules and equivalent relationships.

1. What Is the Rule?

Look at each pattern. Circle the rule.

Rule:

Rule:

Rule:

2. Same Rule or Different Rule?

Circle.

3. Fill the Missing Number

Use the rule.

4. Input and Output

Use the rule to fill the missing numbers.

a)

Input	1	2	3	4
Output	3	4		6

b)

Input	1	2	3	4
Output	6		8	9

5. Build the Pattern

Continue the rule.

Draw the next two groups.

6. Make Your Own Rule

My Rule: _____

My Pattern:

 $\rightarrow$ $\rightarrow$ $\rightarrow$

7. Think and Talk

a) What is a rule?

b) Can two patterns have the same rule?

☐ Yes

☐ No

c) How did you find the missing numbers?

I can...

- ☐ identify simple rules in patterns.
- ☐ recognise equivalent relationships.
- ☐ find missing numbers using rules.
- ☐ explain what the rule means.

My Learning Goal

I can generalise simple rules and understand equivalent relationships.
