

Partition and Regroup Two- and Three-Digit Numbers

Step 23

Today I am learning to partition and regroup two- and three-digit numbers.

1. Partition the Number

Write the number in hundreds, tens and ones.

a. $36 =$ tens and ones

b. $248 =$ hundreds, tens and ones

c. $509 =$ hundreds, tens and ones

d. $731 =$ hundreds, tens and ones

2. Regroup the Number

Show the same number in a different way.

a. $46 = 4$ tens and 6 ones $=$ tens and ones

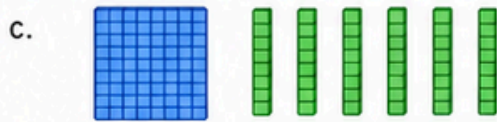

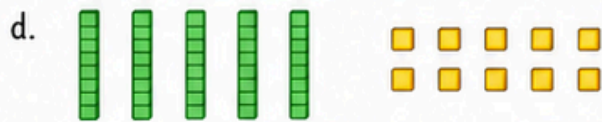

b. $72 = 7$ tens and 2 ones $=$ tens and ones

c. $130 = 1$ hundred, 3 tens and 0 ones $=$
 tens and ones

d. $245 = 2$ hundreds, 4 tens and 5 ones $=$
 hundreds, tens and ones

3. Use the Blocks

Look at the place value blocks. Write the number or the regrouped form.

Number: Number: This is the same as hundreds, tens and ones.Regroup to make tens and ones.

4. Solve the Problems

Read the problems. Write the answer.

- a. Mia has 4 tens and 7 ones stickers.
-
- How many stickers does she have?

- b. Jack has 2 hundreds, 3 tens and 5 ones marbles.
-
- How many marbles does he have?

- c. A number has 6 tens and 14 ones.
-
- Regroup it. What number is it?

- d. A number has 1 hundred, 12 tens and 3 ones.
-
- Regroup it. What number is it?

My Learning Check

Circle a face.

I can do it!

Almost there!

I needed help.

This was hard.

Parent Observation (optional)

- ☐ Partitioned numbers into hundreds, tens and ones ☐ Needed support
- ☐ Regrouped numbers in different ways ☐ Demonstrated understanding verbally
- ☐ Used place value blocks correctly

Notes: _____
