

Add and subtract one- and two-digit numbers

Step 18

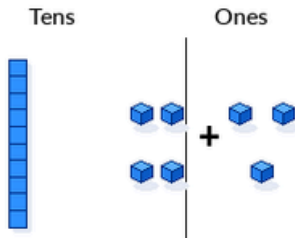

Today I am learning to add and subtract one- and two-digit numbers.

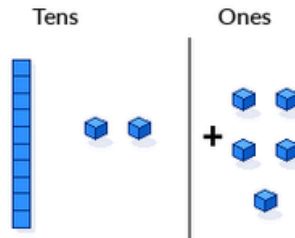

1. Add with Support

Use the tens and ones to help you add. Write the answer.

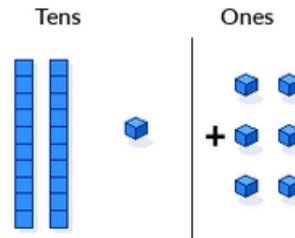

a. $14 + 3 = \square$

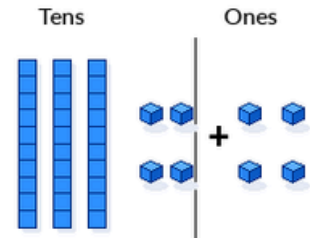

b. $12 + 5 = \square$

c. $21 + 6 = \square$

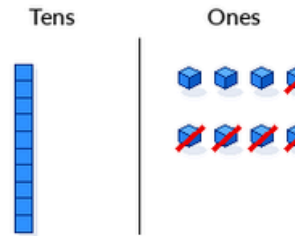

d. $34 + 4 = \square$

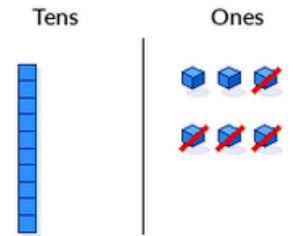

2. Subtract with Support

Use the tens and ones to help you subtract. Cross out the ones you take away.

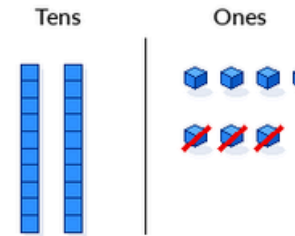

a. $18 - 5 = \square$

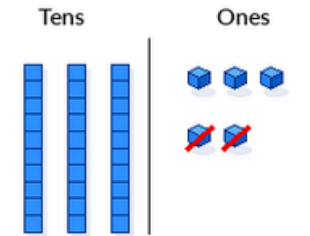

b. $16 - 4 = \square$

c. $27 - 3 = \square$

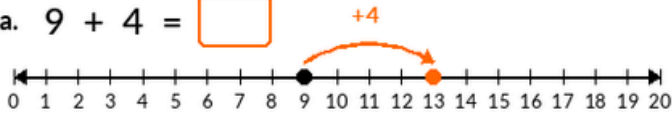

d. $35 - 2 = \square$

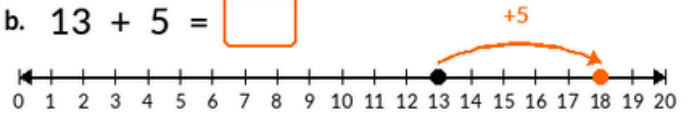

3. Use a Number Line

Use the number line to solve each number sentence. Write the answer.

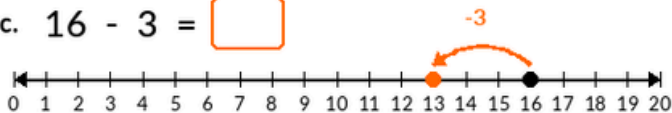

a. $9 + 4 = \square$

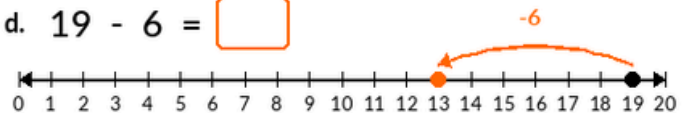

b. $13 + 5 = \square$

c. $16 - 3 = \square$

d. $19 - 6 = \square$

4. Solve the Problems

Read the problems. Draw tens and ones to help you. Write the answer.

- a. Mia has 12 stickers. She gets 6 more stickers. How many stickers does she have altogether?

Draw tens and ones.

- b. Jack has 15 crayons. He gives 4 crayons to his friend. How many crayons does Jack have left?

Draw tens and ones.

- c. There are 8 red apples and 7 green apples in a basket. How many apples are there altogether?

Draw tens and ones.

- d. There are 19 children on the bus. At the next stop, 8 children get off. How many children are left on the bus?

Draw tens and ones.

My Learning Check

Circle a face.

I can do it!

Almost there!

I needed help.

This was hard.

Parent Observation (optional)

- ☐ Adds one- and two-digit numbers with support
- ☐ Subtracts one- and two-digit numbers with support
- ☐ Uses tens and ones effectively
- ☐ Solves problems accurately
- ☐ Shows confidence and understanding
- ☐ Needs support

Notes: _____
