

# Partition two-digit numbers into tens and ones

Step 15

★ Today I am learning to partition two-digit numbers into tens and ones.

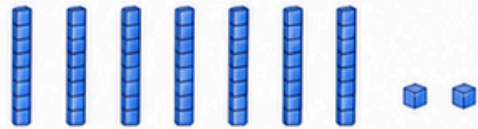

## 1. Look and Write

Write how many tens and ones. Then complete the number sentence.

a. 

\_\_\_\_\_ tens and \_\_\_\_\_ ones

\_\_\_\_\_ = \_\_\_\_\_

b. 

\_\_\_\_\_ tens and \_\_\_\_\_ ones

\_\_\_\_\_ = \_\_\_\_\_

c. 

\_\_\_\_\_ tens and \_\_\_\_\_ ones

\_\_\_\_\_ = \_\_\_\_\_

d. 

\_\_\_\_\_ tens and \_\_\_\_\_ ones

\_\_\_\_\_ = \_\_\_\_\_

## 2. Partition the Numbers

Use tens and ones to partition each number.

a. 24

| Tens | Ones |
|------|------|
|      |      |

\_\_\_\_\_ tens and \_\_\_\_\_ ones

b. 37

| Tens | Ones |
|------|------|
|      |      |

\_\_\_\_\_ tens and \_\_\_\_\_ ones

c. 58

| Tens | Ones |
|------|------|
|      |      |

\_\_\_\_\_ tens and \_\_\_\_\_ ones

d. 71

| Tens | Ones |
|------|------|
|      |      |

\_\_\_\_\_ tens and \_\_\_\_\_ ones

## 3. Fill in the Blanks

Write the number shown by each partition.

a. 4 tens and 6 ones

=      

b. 6 tens and 2 ones

=      

c. 2 tens and 9 ones

=      

d. 8 tens and 0 ones

=      

## 4. Problem Solving

Read the problems. Draw tens and ones to show your answer.

a. Mia has 3 tens and 5 ones.  
How many does she have altogether?

| Tens | Ones |
|------|------|
|      |      |

Mia has  
=        
altogether.

b. Jack has 6 tens and 8 ones.  
How many does he have altogether?

| Tens | Ones |
|------|------|
|      |      |

Jack has  
=        
altogether.

## My Learning Check

How did I do today?

I can do it!

Almost there!

I needed help.

This was hard.

Circle a face.

## Parent Observation (optional)

- ☐ Correctly identifies tens and ones
- ☐ Partitions two-digit numbers accurately
- ☐ Writes the number to match the partition
- ☐ Solves problems using tens and ones
- ☐ Needed support

Notes: \_\_\_\_\_
