

The Greek Root Family graph / gram

graph = write, draw or record | gram = something written or recorded

Roots help us unlock bigger words!

1 Discover the Meaning

These words share the Greek root family graph / gram. It carries the idea of writing, drawing or recording information.

biography

a written account of a life

geography

writing / study about the earth

photograph

an image that records with light

autograph

a person's own signature

telegram

a written message sent far away

diagram

a drawing that shows information

2 Build the Word Family

Join the meaningful parts. Write the complete word.

- bio + graphy = _____
- geo + graphy = _____
- photo + graph = _____
- auto + graph = _____
- tele + gram = _____
- dia + gram = _____

3 Match the Meaning

Draw a line to match each word with its meaning.

biography

an account of a person's life

geography

a message sent over distance

photograph

the study / description of the earth

autograph

an image made by recording light

telegram

a drawing that explains information

diagram

a person's own signature

4 Read and Notice

Read the passage. Circle graph / gram words and underline another meaningful word part when you can.

At the museum, Luca explored a geography display about volcanoes. A diagram showed how magma moves beneath the ground. He read a short biography of a scientist and studied an old photograph of the scientist at work. Beside it was the scientist's autograph. Another display explained how a telegram once carried written messages over long distances. Luca noticed that graph and gram often connect with writing, drawing or recording information.

Connection clue: bio = life | geo = earth
graph / gram = write, draw or record

5 Word Detective

Choose one word from the passage and investigate how its parts help you understand it.

- Write a graph / gram word from the passage.

- What other meaningful word part can you identify?

- What does graph / gram tell you about the word?

- Explain the whole word in your own words.

6 Root Connections & Challenge

Use what you already know about roots to build meaning.

bio + graphy

life + writing / study
→ **biography**

geo + graphy

earth + writing / study
→ **geography**

photo + graph

light + record
→ **photograph**

Choose one graph / gram word and use it in a sentence: _____
