

Compare and Order Decimals

Step 34

Today I am learning to compare and order decimals.

1. Compare the Decimals

Use $<$, $>$ or $=$.

a)

0.4

0.7

c)

3.45

3.5

b)

1.2

1.20

d)

0.68

0.86

2. Order the Decimals

Order from smallest to largest.

a)

0.3, 0.8, 0.5, 0.1

b)

1.4, 1.2, 1.9, 1.6

c)

2.05, 2.15, 2.5, 2.35

d)

0.67, 0.76, 0.6, 0.07

3. Choose the Greatest or Least

Circle the correct decimal.

a) Greatest:

0.9

0.09

0.19

c) Greatest:

1.08

1.8

1.18

b) Least:

2.4

2.04

2.14

d) Least:

0.55

0.5

0.505

4. Solve the Problems

Read the problems. Compare or order the decimals. Write the answer.

a) Mia ran 3.4 km. Sam ran 3.8 km. Who ran farther?

b) A red ribbon is 1.25 m long. A blue ribbon is 1.5 m long. Which ribbon is longer?

c) Put these prices in order from cheapest to most expensive:
\$2.35, \$2.05, \$2.50, \$2.15

d) A bottle holds 0.75 L. A cup holds 0.25 L. Which amount is greater?

My Learning Check

Circle a face.

I can do it!

Almost there!

I needed help.

This was hard.

Parent Observation

☐ Compared decimals correctly

☐ Solved decimal problems accurately

☐ Ordered decimals accurately

☐ Needed support

☐ Used place value understanding

☐ Demonstrated understanding verbally

Notes: _____
