

Today I am learning to scale simple tasks up and down.

1. Scale Up (Make More)

Look at the first group. Make the new group.

Follow the scale given.

Scale

Draw or write the new group.

a)		2 times as many	
b)		3 times as many	
c)		4 times as many	
d)		5 times as many	

2. Scale Down (Make Fewer)

Look at the first group. Make the new group.

Follow the scale given.

Scale

Draw or write the new group.

a)		$\frac{1}{2}$ as many	
b)		$\frac{1}{3}$ as many	
c)		$\frac{1}{2}$ as many	
d)		$\frac{1}{5}$ as many	

3. Complete the Table

Fill in the missing numbers.

	Starting Amount	2 times as many	$\frac{1}{2}$ as many	3 times as many	$\frac{1}{3}$ as many
a)	4	_____	_____	_____	_____
b)	6	_____	_____	_____	_____
c)	8	_____	_____	_____	_____
d)	10	_____	_____	_____	_____
e)	12	_____	_____	_____	_____

4. Real-Life Scaling

Read each problem. Scale up or down to find the answer.

- a) A recipe uses 2 cups of flour.
How much flour is needed for:
- 2 times the recipe? _____ cups
 - $\frac{1}{2}$ of the recipe? _____ cups

- b) A box has 6 paint cans.
How many paint cans are needed for:
- 3 times as many boxes? _____ cans
 - $\frac{1}{2}$ as many boxes? _____ cans

- c) A pizza is cut into 8 slices.
How many slices are there for:
- 2 pizzas? _____ slices
 - $\frac{1}{4}$ of a pizza? _____ slices

5. Draw and Explain

Draw the groups and complete the sentences.

- a) Draw 3 flowers.
Draw 4 times as many flowers.
 There are _____ times as many.
- b) Draw 6 balls.
Draw $\frac{1}{2}$ as many balls.
 There are _____ times as many.
- c) Draw 5 stars.
Draw 3 times as many stars.
 There are _____ times as many.

6. Think and Solve

Solve each problem.

- a) Liam reads 3 pages of a book.
He wants to read 5 times as many pages.
How many pages will he read?

- b) A tray has 12 cupcakes.
If you put $\frac{1}{3}$ as many cupcakes on a small plate,
how many cupcakes are on the plate?

- c) Sara collects 4 stickers in a day.
Her goal is to collect 2 times as many stickers
each day for 6 days.
How many stickers will she collect in 6 days?

I can...

- ☐ scale simple tasks up.
- ☐ scale simple tasks down.
- ☐ compare using times as many or $\frac{1}{2}$, $\frac{1}{3}$, $\frac{1}{4}$ as many.
- ☐ explain my thinking.

Chance Words

Great job!

You are learning
to scale and reason
like a mathematician!
