

Connect multiplication and division through grouping and sharing

Use grouping to show multiplication. Use sharing to show division.
Write the multiplication and division number sentences.

Step 6

Early Elementary

★ Today I am learning to connect multiplication and division through grouping and sharing.

1. Make Equal Groups (Multiplication)

Look at each set. Make equal groups. Write the multiplication sentence.

a)

Make groups of 3.

Multiplication sentence: _____ × _____ = _____

b)

Make groups of 5.

Multiplication sentence: _____ × _____ = _____

c)

Make groups of 4.

Multiplication sentence: _____ × _____ = _____

2. Share Equally (Division)

Look at each set. Share equally. Write the division sentence.

a)

Share 12 candies equally into 3 groups.

Division sentence: _____ ÷ _____ = _____

b)

Share 15 fish equally into 5 groups.

Division sentence: _____ ÷ _____ = _____

c)

Share 12 carrots equally into 4 groups.

Division sentence: _____ ÷ _____ = _____

3. Connect Multiplication and Division

Complete the related multiplication and division sentences.

a)

Multiplication:

_____ × _____ = _____

Division:

_____ ÷ _____ = _____

b)

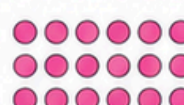

Multiplication:

_____ × _____ = _____

Division:

_____ ÷ _____ = _____

c)

Multiplication:

_____ × _____ = _____

Division:

_____ ÷ _____ = _____

4. Choose the Situation and Write Equations

Choose multiplication or division. Write the equation and solve.

a)

There are 6 plates.
There are 4 cookies on each plate.
How many cookies are there in all?

Equation: _____

Answer: _____ cookies

b)

There are 20 apples.
They are put equally into 5 baskets.
How many apples are in each basket?

Equation: _____

Answer: _____ apples in each basket

c)

There are 18 pencils.
They are shared equally among 3 friends.
How many pencils does each friend get?

Equation: _____

Answer: _____ pencils for each friend

5. Solve Story Problems

Read each story. Use grouping or sharing. Write a multiplication or division equation and solve.

a)

There are 3 boxes.
Each box has 6 crayons.
How many crayons are there in all?

Equation: _____

Answer: _____ crayons

b)

There are 24 buttons.
They are shared equally into 6 bags.
How many buttons are in each bag?

Equation: _____

Answer: _____ buttons in each bag

c)

There are 12 stickers.
They are put equally into 4 albums.
How many stickers are in each album?

Equation: _____

Answer: _____ stickers for each album

My Learning Check

Circle how confident you feel.

I can do it!

I need more practice.

I need help.

I used...

grouping

sharing

ten frames

counters or cubes

Today I learned...

1 thing I did well: _____

1 thing I will improve: _____
