

Use measurement calculations in practical tasks

Today I am learning to use measurement calculations to solve practical problems.

Name: _____

Date: _____

Step 7

Upper Elementary

1. Add Lengths

Add the lengths and write the total.

a)

Ribbon A = 12 cm

Ribbon B = 8 cm

Total length = _____ cm

b)

Pencil = 15 cm

Eraser = 5 cm

Total length = _____ cm

c)

Book = 22 cm

Notebook = 18 cm

Total length = _____ cm

2. Compare Lengths

Solve the problems.

a) A rope is 30 cm long.

Another rope is 18 cm long.

How much longer is the first rope?

Answer: _____ cm

b) A ruler is 30 cm long.

A pencil is 12 cm long.

Difference = _____ cm

3. Capacity Problems

Solve the problems.

a) A bottle holds 1 L.

Another bottle holds 2 L.

Total capacity = _____ L

b) A jug contains 3 L.

1 L is poured out.

How much remains?

Answer: _____ L

c) A container holds 5 L.

2 L are added.

How much is in the container now?

Answer: _____ L

4. Mass Problems

Solve the problems.

a) A watermelon weighs 4 kg.

A pumpkin weighs 6 kg.

Combined mass = _____ kg

c) A backpack weighs 8 kg.

3 kg are removed.

New mass = _____ kg

b) A dog weighs 12 kg.

A puppy weighs 5 kg.

Difference = _____ kg

5. Time Problems

Solve the problems.

a) Soccer starts at 3:00 pm.

It lasts 1 hour.

What time does it finish?

Answer: _____

b) Lunch begins at 12:30 pm.

It lasts 30 minutes.

Finish time = _____

c) A movie starts at 6:00 pm.

It lasts 2 hours.

Finish time = _____

6. Real-Life Measurement Tasks

Solve the problems.

a) A garden bed is 4 m long.

Another garden bed is 3 m long.

Total length = _____ m

b) A water tank contains 10 L.

3 L are used.

Amount left = _____ L

c) A package weighs 7 kg.

Another package weighs 4 kg.

Combined mass = _____ kg

7. Choose the Correct Unit

Circle the best unit for each measurement.

a) Length of a classroom

cm

m

kg

b) Water in a bucket

L

cm

min

c) Mass of a dog

kg

L

cm

8. Think and Explain

Write your answers.

a) Why do we use measurement calculations?

b) Which measurement type do you use most often?

c) How can estimation help before calculating?

I can...

- ☐ add and subtract lengths, masses and capacities
- ☐ solve time problems
- ☐ choose the correct unit
- ☐ use calculations in real-life situations

Measurement Words

length

cm m

mass

kg

capacity

L mL

time

min h

Great job!

You are becoming a great problem solver!
