

Recognise Small Quantities Without Counting

Today I am learning to recognise small groups without counting them.

1. Let's Look

Circle the group that shows the same amount.

3

(three)

2

(two)

4

(four)

2. Let's Match

Draw a line to match groups that show the same amount.

3. Let's Think

Circle the group that is different.

4. Challenge

Find and circle all the groups that show 5 (five).

My Learning Check

How did I go today?

I can do it!

Almost there!

I needed help.

This was hard.

Circle a face.

Parent Observation (optional)

- ☐ Recognised quantities without counting
- ☐ Counted some groups
- ☐ Needed support
- ☐ Demonstrated understanding verbally
