

Share Small Collections Equally

Today I am learning to share small collections equally.

1. Let's Look

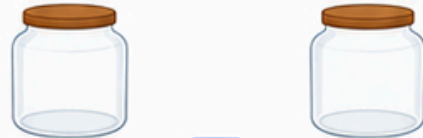

Share equally. Draw the objects in each box.

a. Share 6 apples equally between 2 plates.

Each plate has apples.

b. Share 8 cookies equally between 2 jars.

Each jar has cookies.

c. Share 6 cars equally between 3 garages.

Each garage has cars.

d. Share 10 bears equally between 5 boxes.

Each box has bears.

2. Let's Try

Share equally. Draw the objects in each box. Write how many in each group.

a. Share 4 oranges equally between 2 bowls.

Each bowl has oranges.

b. Share 9 stars equally between 3 circles.

Each circle has stars.

c. Share 8 pencils equally between 4 cups.

Each cup has pencils.

d. Share 12 hearts equally between 3 boxes.

Each box has hearts.

3. Solve and Write

Solve each sharing problem.

1. Share 6 lollipops equally between 2 children.
Each child gets lollipops.

2. Share 10 biscuits equally between 5 friends.
Each friend gets biscuits.

3. Share 9 flowers equally between 3 vases.
Each vase has flowers.

4. Share 8 stickers equally between 2 pages.
Each page has stickers.

5. Share 12 marbles equally between 4 bags.
Each bag has marbles.

4. Challenge

Share equally in different ways.

There are 12 candies.

a. Share equally between 2 bowls.

Each bowl has candies.

b. Share equally between 3 bowls.

Each bowl has candies.

c. Share equally between 4 bowls.

Each bowl has candies.

My Learning Check

I can do it!

Almost there!

I needed help.

This was hard.

Circle a face.

Parent Observation (optional)

- ☐ Shared small collections equally
- ☐ Used drawing or objects to show sharing
- ☐ Wrote correct number in each group
- ☐ Explained thinking clearly
- ☐ Needed support

Notes: _____
