

## Act out joining and taking away in everyday stories

Use objects, pictures and numbers to show what happens in each story.

★ Today I am learning to act out joining and taking away in everyday stories.

### Step 1

Kindergarten /  
Early Elementary

#### 1. Join (Addition)

Act out the story. Draw or use counters to show it.  
Write a number sentence to match.

- a) Ella has 3 apples.  
Sam gives her 2 more apples.  
How many apples does she have now?

Draw or use counters to show.

Number sentence:  +  =

- b) There are 4 balloons.  
2 more balloons float up.  
How many balloons are there now?

Draw or use counters to show.

Number sentence:  +  =

- c) There are 2 snails on a log.  
3 more snails crawl onto the log.  
How many snails are on the log now?

Draw or use counters to show.

Number sentence:  +  =

#### 2. Take Away (Subtraction)

Act out the story. Draw or use counters to show what happens.  
Write a number sentence to match.

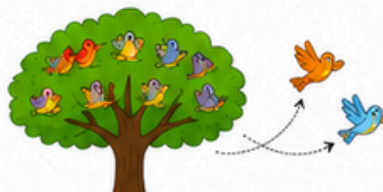

- a) Mia had 5 crackers.  
She eats 2.  
How many crackers are left?

Draw or use counters to show.

Number sentence:  -  =

- b) There are 6 birds in a tree.  
2 birds fly away.  
How many birds are left?

Draw or use counters to show.

Number sentence:  -  =

- c) Ben has 7 toy cars.  
He gives 3 to his friend.  
How many cars does he have now?

Draw or use counters to show.

Number sentence:  -  =

#### 3. Think About It!

Look at each situation. Is it joining or taking away? Tick (✓) the correct one.

- a) You have 3 biscuits.  
Your friend gives you 2 more.  
What is it?

Joining ☐ Taking Away ☐

- b) You had 5 stickers.  
You use 2 of them.  
What is it?

Joining ☐ Taking Away ☐

- c) There are 4 shells.  
2 more shells are found.  
What is it?

Joining ☐ Taking Away ☐

- d) You had 6 marbles.  
You lost 1 marble.  
What is it?

Joining ☐ Taking Away ☐

#### My Learning Check

Circle how confident you feel.

I can do it!

I need more practice.

I need help.

#### I used...

counters
