

Choose suitable standard units and measuring tools

Step 5

Early Elementary

I am learning to choose the best standard unit and measuring tool for a situation.

1. Which Tool Would You Use? Circle the best tool.

a) Measure the length of a pencil.

String

Ruler

Scales

b) Measure how heavy a watermelon.

Ruler

Scales

Clock

c) Measure how much water fits in a bucket.

Measuring jug

Ruler

Clock

d) Measure how long recess lasts.

Clock

Scales

Ruler

2. Choose the Unit Circle the best unit.

a) Length of a pencil

cm

kg

L

b) Weight of a dog

cm

kg

min

c) Milk in a bottle

kg

L

cm

d) Time for lunch

cm

min

kg

3. Match the Tool to the Unit

Draw a line to match.

Ruler

centimetres (cm)

Scales

kilograms (kg)

Measuring jug

litres (L)

Clock

minutes (min)

4. What Are We Measuring?

Write: Length, Mass, Capacity, or Time.

a) A ruler measures: _____

b) A measuring jug measures: _____

c) Scales measure: _____

d) A clock measures: _____

5. Which Makes Sense?

Circle the sensible answer.

a) A pencil is: 15 cm or 15 kg

b) A bucket holds: 10 L or 10 cm

c) A cat weighs: 4 kg or 4 L

d) Recess lasts: 30 min or 30 kg

6. Real-Life Measuring

Look at the picture and choose.

a) Book

Best tool: _____

Best unit: _____

b) Milk bottle

Best tool: _____

Best unit: _____

c) Dog

Best tool: _____

Best unit: _____

d) Race

Best tool: _____

Best unit: _____

7. Draw and Label

Draw the tool. Then write the unit it uses.

a) A ruler Unit: _____

b) A clock Unit: _____

c) Scales Unit: _____

8. Think and Talk

Write your answer.

a) Why do we use standard units?

b) How do tools help us measure accurately?

c) Which measuring tool have you used before?

I can...

- ☐ choose the right tool.
- ☐ choose the right unit.
- ☐ use standard units in real life.

Measurement Words

length
centimetre (cm)

mass
kilogram (kg)

capacity
litre (L)

time
minute (min)

Great job!

You are becoming a great measurer!
