

Question Displays and Simple Data Claims

SDA UE Step 8

★ I can ask questions about data and make simple claims using evidence.

1 Let's Look A class surveyed the students about their favourite after-school activity.

Favourite After-School Activity	
Sport	      
Craft	    
Music	    
Reading	   
Video games	 

Key:  = 2 students

Talk About It

- What question was asked in this survey?
- Which activity was the most popular?
- Which activity was the least popular?
- How many students were surveyed in all?
- Write one more question we could ask about this data.

Think and Say

We can use data to answer questions and make claims.

A data claim is a statement based on the information.

Example:

More students like sport than reading.

2 Let's Try Read the displays and answer the questions. Then, make a simple data claim.

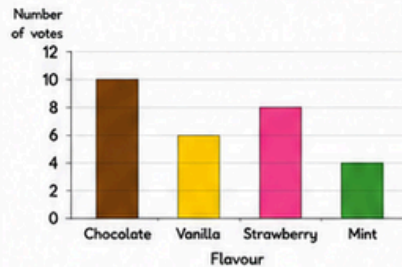

A. Pets in the Class

Pet	Number of students
Dog	      
Cat	     
Fish	   
Bird	   
Other	 

Key:  = 1 student

- Which pet is the most popular? _____
- Which pet is the least popular? _____
- How many students have a cat or a dog? _____
- Write a data claim using this information.

B. Ice Cream Flavours

- Which flavour has the most votes? _____
- Which flavour has the least votes? _____
- How many more votes did chocolate get than vanilla? _____
- Write a data claim using this graph.

C. Transport to School

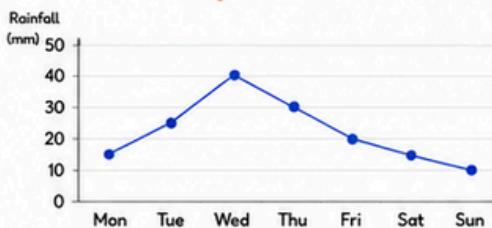

Method	Number of students
Car	     
Bus	    
Walk	   
Bike	  
Other	 

Key:  = 1 student

- Which is the most common way to travel? _____
- Which is the least common way to travel? _____
- How many students travel by bus or car? _____
- Write a data claim using this information.

3 Let's Do Look at the display. Answer the questions and make a data claim.

Weekly Rainfall (mm)

Summary Measures

Maximum	40 mm
Minimum	10 mm
Range	30 mm
Total	155 mm
Mean (average)	22 mm

- On which day was the most rain? _____
- On which day was the least rain? _____
- What is the range of the rainfall? _____ mm
- What is the mean (average) rainfall? _____ mm
- On which two days was the rainfall the same? _____
- How many millimetres of rain fell from Wednesday to Friday? _____ mm
- Write one question we could ask about this data. _____
- Write a data claim based on the data. _____

4 Challenge Choose a data set you are interested in. Ask questions and make claims.

Choose a topic:

- Favourite sport
- Screen time per day
- Books read in a month
- Fruit brought for lunch

Create a display to show your data.

Questions about your data

- _____
- _____
- _____

Data claims (statements)

- _____
- _____

My Learning Check

How did I go today?

I can do it!

Almost there!

I need more help.

This was hard.

Circle a face.

Parent Observation (optional)

Tick what you saw today.

- ☐ Asked good questions about data
- ☐ Interpreted graphs and used summary measures
- ☐ Made simple data claims with evidence
- ☐ Explained thinking clearly
- ☐ Needed support

Notes: _____
